DETAILED ACTION

1. According to a supplemental amendment (paper no. 21) filed on Jan. 17, 2003, the applicants have added new claims 62-92.
2. Claims 1, 4-10, 12, 13, 16-33, 36-59 and 61-92 are now pending in the application.

Claim Rejections - 35 USC § 102

(e) the invention was described in-

- (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or
- (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

3. Claims 1, 4-10, 12, 13, 16-33, 36-59 and 61-92 are rejected under 35 U.S.C. 102(e) as being anticipated by Ikemoto (US 2001/0049450, cited on applicants form 1449).

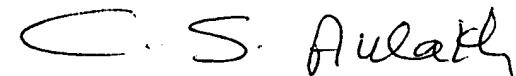

Ikemoto discloses Citalopram hydrobromide crystal and method for crystallization thereof. The methods 1 and 2 (see pages 2 and 3) for crystallizing citalopram hydrobromide as well as citalopram hydrobromide crystals (see claims 1-19) disclosed by Ikemoto clearly anticipate the instant claims.
